

ABC Scrum Master

Accreditation	APMG
Course duration	2 Days
Certificate valid for	Never expires

Who should attend

This two-day course addresses the principles and theory underpinning the Scrum framework, and the role of the Scrum Master in it.

This qualification is particularly beneficial for those accountable for getting the most out of Scrum, including Scrum Masters, managers and Scrum team members. It is primarily aimed at individuals wishing to build their competence as a Scrum Master either in preparation for taking on that role or as somebody already fulfilling the role who wants to ensure that they are serving their team and organisation in the right way.

Individuals involved in using the Scrum framework, or managing those that do will also benefit from gaining an understanding of Scrum through gaining this qualification.

Course information

Overview

Scrum is a framework for developing, delivering & sustaining complex products through effective team collaboration. Scrum has been used to develop software, hardware, autonomous vehicles, schools, government, marketing, managing the operation of organisations and almost everything we use in our daily lives, as individuals and societies. A Scrum Master is responsible for promoting and supporting Scrum - as defined in The Scrum Guide - by helping everyone understand Scrum theory, practices, rules and values.

The course leads to the ABC Scrum Master qualification. The purpose of which is to measure whether a candidate has sufficient knowledge and understanding of Agile Principles and the Scrum Guide, provided as pre-course reading, to enable them to start helping teams and organisations adopt Scrum.

Day 1

- Scrum Overview
- Self Organization
- Agile Principles
- Empirical Product Development
- Scrum Events
- The Development Team

Day 2

- Scrum Roles
- The Product Backlog

- Spring Planning and Done
- Sprint Progress
- Scrum Simulation
- Growing as a Scrum Master

Entry Requirements

Delegates are required to undertake preliminary study using the Pre-Course Reading.

Assessment

The course is assessed via a multiple-choice format examination:

Scrum Master Exam

- 50 questions
 - 40 minutes
 - Pass mark = 74%
 - Closed book (no reference materials allowed)
-

Certification

Successful delegates will receive an ABC Scrum Master Electronic Certificate. Delegates will also be able to download Digital Badges, which they can use on social media sites (e.g. LinkedIn) to verify their qualification.
