---

## Who should attend

The BTEC Level 1 Certificate in Construction is eligible for Adult Education Funding and is an ideal introduction into Construction. Individuals will gain a nationally recognised Construction, Health & Safety Level 1 Certificate, enabling them to apply for the Green CSCS Labourers card (once they have completed their HS&E test).

---

## Course information

### Overview

The Certificate in Construction is a 5-day qualification that develops the knowledge an employee will need to work safely and responsibly in a construction environment. It is aimed at providing employers with newly trained individuals in the principles of effectively working in a demanding safety environment. This qualification helps boost learners' career prospects by giving them the skills, knowledge and understanding that the employers are looking for as well as the health and safety training to apply for the green CSCS labourers card.

### Course Content

The course will cover the following subjects to teach and develop the potential employee and to build their confidence and effectiveness in employment;

- Health and safety and welfare in construction
  - Working in a team to move and handle resources
  - Working towards goals
  - Working as part of a group
  - Produce a product plan and construction
  - Health and safety in construction (CSCS H&S qualification)
- 

## Assessment

Classroom delivery, with achievement of the assessment criteria evidenced through contextualised, vocationally-related and practical experiences, along with completion of portfolio of evidence.

---

## Certification

Delegates will be awarded the Pearson BTEC Level 1 Certificate in Construction.

---

## More details
