

CCNSG Safety Passport Renewal

Accreditation	ECITB
Course duration	2 Days
Certificate valid for	3 years

Who should attend

The CCNSG (Client Contractor National Safety Group) Safety Passport is the engineering construction industry safety card. Workers must have a valid CCNSG Safety Passport to enter many engineering and construction sites. As a result, around 30,000 people complete the course each year.

The course is for employees of contractors to enable them to improve health, safety and environmental awareness. The qualification will give the benefit of reducing accident rates and incident related costs.
