

JCT 2016 Contracts – Advanced Workshop

Accreditation	ESS Certificate
Course duration	1 Day
Certificate valid for	Never expires

Who should attend

All those involved in the tendering, procurement or contract negotiations and legal frameworks required by any organisation. This course is for experienced JCT 2016 contract practitioners.

Course information

Introduction

Understanding contractual provisions can be complicated; JCT 2016 was introduced to develop, publish, procure and revise a suite of standard forms of contract and tender documentation for construction. Suite of “standard forms” means a group of documents necessary to operate a particular method of procurement. JCT 2016 is the current edition of JCT’s standard forms of contract. The JCT ranges in publications from standard contracts, to major construction projects or a Design and Build Contract which is designed for construction projects where the contractor carries out both the design and the construction work.

Course Aim and Content

The course aim is to provide an Advanced workshop to existing practitioners on the JCT 2016 family of contracts, specifically focusing on the Standard Building Contract with Quantities (SBC/Q), but other members of the JCT 2016 family will also be considered and discussed. At the end of the course, participants should be able to:

- Fully appreciate how to deal with advanced issues with JCT 2016 contracts
- Understand the more important clauses of the contracts
- Appreciate the roles and responsibilities of the key parties
- Be able to confidently deal with issues when running a JCT 2016 contract

Entry Requirements

Previous experience or attendance on either the introduction or intermediate JCT workshops is strongly advised.

Learner Numbers

In order to ensure the interaction between the learners and the tutor is spread evenly and effectively, the maximum number of learners allowed on a course is sixteen.

Assessment

Learners will explore a range of case studies to underpin knowledge.

Certification

Upon completion of training learners will receive an Essential Site Skills certificate and a photo ID card.

We advise a refresher every 3 years due to the changes in industry best practice and contractual standards.

More details

What is JCT (Joint Contracts Tribunal)

Understanding contractual provisions can be complicated; JCT 2016 was introduced to develop, publish, procure and revise a suite of standard forms of contract and tender documentation for construction. Suite of “standard forms” means a group of documents necessary to operate a particular method of procurement. JCT 2016 is the current edition of JCT’s standard forms of contract. The JCT ranges in publications from standard contracts, to major construction projects or a Design and Build Contract which is designed for construction projects where the contractor carries out both the design and the construction work.
