Who should attend

This risk assessment training course is aimed at personnel who have been given the task of carrying out and communicating risk assessments such as Managers, supervisors and business owners.

Course information

Overview

The Management of Health and Safety at Work Regulations require all organisations with 5 or more staff to carry out written health and safety risk assessments of all their significant hazards. This risk assessment training will give learners guidance into the application of these legal requirements in the workplace.

The concept of 'risk assessments' can often strike fear amongst organisations and to those responsible for carrying them out, our Risk Assessment course explains in simple terms how to approach risk assessments and carry them out on your own. The skill to risk assessments is to prioritise risks and then focus on areas where the consequences of hazards are most severe. It really isn't any more complicated than that.

Course Aim

To equip delegates with the knowledge and skills to be able to carry out risk assessments. Risk assessments are vital to protect your workers and your business. Helping you to focus on the risks that really matter, our risk assessment course will provide you with all the skills you need to comply with the law.
