| <b>Certificate valid for</b> | 2 years                          |

---

## Who should attend

This course is aimed at people who want to gain entry into the lifting industry.

We will conduct a learner analysis to identify the duration of training required for those with limited or no experience, whereas experienced operators can attend a two-day experienced worker course.

---

## Course information

### Course content

- Establish the weight and dimensions of loads and communicate this information to the crane operator.
- Select appropriate lifting tackle and attach and detach it correctly and safely.
- Use clear and unambiguous signals to direct the actions of a crane moving loads of various weights and dimensions.
- Determine the serviceability of lifting accessories, and maintain and store them.

### Entry requirements

Learners must have passed the Operatives Health, Safety and Environment Test within the last 2 years, prior to course start date.

Good understanding of spoken and written English.

---

## Assessment

Mixture of classroom-based teaching and practical exercises, followed by one day assessment - CPCS technical tests.

---

## Certification

Learners will receive a Red CPCS Trained Operator Card on passing the CPCS technical tests, valid for two years.

After gaining on-site experience, you must complete an NVQ level 2 within two years to apply for the blue CPCS Competence Card which is renewable every five years.

---

### **Grants and Funding**

Grants against the cost of your CPCS training and testing are available for eligible employers. For further information please visit the [CITB Grant page](#).

We can provide construction SMEs with less than 250 employees with free level 2 construction NVQs through our Skills Support for the Workforce programme, funded by the European Social Fund. Please contact us for the regions that are currently eligible, this is for a limited time only.
