Successful learners will be awarded an Essential Site Skills Horizontal Life Line Awareness certificate valid for 3 years.

More details

Additional Info

Learners attending this course must already hold a basic work at height awareness certificate.

On site locations must provide the relevant HLL they would like to use. If you are not sure and would like to see options available to you this can be arranged with prior engagement at the course booking stage. Our trainer will provide 2-3 options for training. ESS are also a market leading provider of HLL's, both temporary and permanent, and would be happy to advise.
