

# NEBOSH Health and Safety Management for Construction

<b>Accreditation</b>	NEBOSH
<b>Course duration</b>	10 Days plus exam
<b>Certificate valid for</b>	Never expires

---

## Who should attend

The NEBOSH Health and Safety Management for Construction qualification is aimed at managers, supervisors and anybody who manages construction health and safety as part of their duties within their organisation. The course looks at construction workplace health and safety issues and can be applied in many sectors.

This is a replacement qualification for the NEBOSH National Certificate in Construction Health and Safety.

---

## Course information

### Overview

On completion of the qualification, learners will be able to:

- Advise on duties and manage construction risks under the CDM Regulations (2015)
- Justify the need for health and safety improvements
- Produce or contribute to a construction phase plan
- Help their organisation to manage contractors
- Positively influence health and safety culture and behaviour
- Carry out a risk assessment of a construction site and manage a range of construction hazards
- Recognise workplace changes and their impacts and understand how to minimise these impacts
- Develop basic safe systems of work that include emergency arrangements and know when to use a permit-to-work system
- Take part in incident investigations.

### Minimum standard of English required for candidates

The standard of English required by candidates studying for the NEBOSH Health and Safety Management for Construction must be such that they can both understand and articulate the concepts contained in the syllabus. It is important to stress that the onus is on accredited course providers to determine their candidates' standards of proficiency in English. NEBOSH recommends to accredited course providers that candidates undertaking this qualification should reach a minimum standard of English equivalent to an International English Language Testing System score of 6.0 or higher in IELTS tests in order to be accepted onto a Health and Safety Management for Construction programme.

For further information please see the latest version of the IELTS Handbook or consult the IELTS website: <https://www.ielts.org/for-test-takers/test-format>

Candidates wishing to assess their own language expertise may consult the IELTS website for information on taking the test: <https://www.ielts.org/about-the-test/two-types-of-ielts-test>

## Exemptions

NEBOSH Health and Safety Management for Construction (UK) is a standalone qualification. This means that you will not be able to use units from other NEBOSH qualifications against any part of this qualification.

## Learner Numbers

In order to ensure the interaction between the learners and the tutor is spread evenly and effectively, the maximum number of learners allowed on a course is twelve.

## Assessment

The assessment is an open book examination (OBE), which will be based on a realistic scenario, that will test both what you know and what you can do. You will be asked to carry out a series of tasks using evidence from the scenario and the underpinning knowledge gained through your studies and revision. You will have 48 hours to download, complete and submit your assessment.

Your assessment will be marked by an external examiner appointed by NEBOSH. These examiners are chosen for their experience and expertise to ensure that learners are assessed by the very best from our industry.

## Total Qualification Time

The NEBOSH Health and Safety Management for Construction (UK) will involve a minimum of 68 taught hours, and approximately 40 hours of private study and background reading to prepare for the 48 hours open book examination.

## Certification

NEBOSH Health and Safety Management for Construction.

## More details

### Is the qualification recognised?

Holders of the NEBOSH Health and Safety Management for Construction (UK and International) are entitled to Associate Membership (AIIRSM) of the International Institute of Risk and Safety Management (IIRSM).

NEBOSH Health and Safety Management for Construction (UK) Certificate is an accepted qualification for the Construction Skills Certification Scheme (CSCS) Academically Qualified Person Card.
