---

## Course information

### Course Overview

The purpose of this qualification is to allow learners to demonstrate understanding of data protection and data security. It will help learners progress to a work role where data protection and data security knowledge is required.

### Course Objectives

The objectives of this qualification are to enable learners to:

- understand current data legislation
- understand steps organisations might take to help protect data
- understand how to protect their own data
- understand how to protect ICT systems from common threats
- understand the consequences of not protecting data and systems

### Course Units

1. Understand current data protection legislation
  2. Understand organisational procedures concerning data
  3. Understand threats to ICT systems and data
  4. Understand the consequences of not protecting data
- 

## Assessment

To be awarded the Level 2 Certificate in Understanding Data Protection and Data Security, learners are required to successfully complete all four mandatory units.

Assessment involves a blended delivery approach - This is a mixture of face-to-face and remote sessions with a qualified assessor.

---

## Certification

Delegates will be awarded the NCFE Level 2 Certificate in Understanding Data Protection and Data Security.

---

## More details
