Course information

Overview

DCPC (Driver Certificate of Professional Competence Periodic Training) is required by law for all professional drivers for HGV and PCV and is applicable to vehicle categories C1, C, C+E, D1, D and D+E. Drivers require 35 hours of periodic training every five years to maintain their CPC entitlement. The 35 hours may be split over 5 years or carried out over the course of a week.

The qualification was developed as part of EU Directive 2003/59 which is designed to improve the knowledge and skills of professional LGV and PCV drivers throughout their working life.

Please note, if you do not currently hold a Driver CPC entitlement, you will need to complete the 35 hours before you are issued with a Driver Qualification Card.
